## ABOUT HER ART

Olivia is an **Energy artist**.  
Her language is that of light.  
One that bypasses words.  
That is sensed and not learned.  
That communicates with the soul.

Energy is invisible and everywhere.  
Undefinable and universal.  
How to put words on Olivia then?

Olivia chooses joy and vibrates joy.  
Her discipline is positivity.  
She allows each day to be a sacred celebration.  
She trusts, even in darker times.  
Allow, trust and let go.  
This is how she opens the channel to the subtle realm,  
source of infinite creativity.

She feels the world instead of thinking it.  
Senses nature. Senses her body.  
Water as a must.  
Dancing as a blast.  
Dreams as a drive.

The high vibrations she receives carry bliss, ecstasy, and unconditional love.  
Olivia lets them diffuse, through her whole being,  
before conveying them through her hands on canvas.  
She then reveals the intangible with colour and movement.

**COLOR** stands for the life force.  
The vibrant energy that nourishes her soul.

**MOVEMENT** stands for the flow.  
The freedom that allows magic to be part of the play.

Olivia perceives art as being beyond the object.  
Beyond the painting.  
Her art is about life. About people.  
She deeply believes we are all creative souls by nature.  
Through her art, she longs to inspire others to reveal  
their authentic and colourful selves.

Olivia is a **light worker**.  
Her creations help to live from the heart.  
To tap in the energy of unconditional love.
